As far as we know, our products do not currently contain any of these SVHCs in a concentration above 0.1% of the weight of the product as well as any substance above the limit listed under Annexes XIV and XVII of the EU REACH regulation.

Variscite does not perform any specific chemical analysis of its products thus please accept our apologies in advance for not filling out any detailed inquiry form on this matter.

As an environmentally responsible company, Variscite supports REACH and other legislations with the aim to improve the protection of our environment and human health and safety.
